TRAFFIC CONE

TCS1204H1

Traffic Cone- TCS1204H1

Description

The TUF-FIX TCS1204H1 Traffic Cone is a heavy-duty, high-visibility traffic safety cone designed for effective traffic control, hazard identification, and work zone management. Manufactured from durable, weather-resistant materials, it features a 100 cm height, a 32 cm high-intensity reflective sleeve, and a solid rubber weighted base for superior stability. The cone body is securely locked into the base, making it suitable for demanding indoor and outdoor environments. Ideal for highways, construction sites, parking areas, warehouses, airports, and industrial facilities.

Features

- 100 cm Tall Cone for maximum visibility from long distances.
- 32 cm High-Visibility Reflective Tape enhances day and night safety.
- Heavy-Duty Rubber Base provides excellent stability against wind and vehicle drafts.
- Cone Body Lock System securely fixes the cone to the weighted base, preventing separation.
- Large 49 × 49 cm Base ensures enhanced balance and durability.
- Bright Fluorescent Orange Body for excellent daytime visibility.
- Weather & UV Resistant for long-lasting outdoor performance.
- Impact-Resistant Construction withstands repeated use in demanding environments.
- Easy to Handle and Transport with ergonomic top grip.

TECHNICAL DATA SHEET

Specification	
Model Number	TCS1204H1
Type	Reflective Tape Traffic COne
Brand	TUF-FIX
Length	100 cm
Reflective Sleeve	32 cm High Visibility Reflective Tape
Cone Color	Fluorescent Orange
Base Size	49cm x49cm
Base Type	Solid Weighted Base
Base Material	Heavy-Duty Rubber
Reflective Color	White/Silver
Cone Lock	Integrated Cone Body Lock System
UV Resistant	Yes

Applications

- Road Construction
- Highway Maintenance
- Traffic Diversions
- Parking Management
- Industrial Facilities
- Warehouses
- Airports
- Schools & Public Events
- Emergency Response Areas
- Utility & Maintenance Work Zones
